

CHILDREN'S  
EDITION

AGE 7+

**RAPID AROUND**

**A Game FULL of POSITIVITY!**

**A FUN Game for Children  
that will improve their knowledge,  
memory, quick thinking,  
focus and creativity.**

### **What's in the box?**

1. 1 Playing Board
2. 125 Question Cards
3. 10 Tokens

### **Getting The Game Set Up:**

- Put the game board out
- Pick a game piece/token
- Open the **RAPID AROUND** Cards.  
Shuffle the cards really good and place them somewhere on or near the board

### **Let's get it started**

The person who goes first picks the top card from the **RAPID AROUND** pile. That person reads the card/question out loud for everyone to hear and gives the first answer. Then you go around the game board/table with everyone giving an answer to the question, as **RAPIDLY** as possible. For example, if the question asks for "flavors of soup", you could say "chicken noodle" and so on.

It's totally up to you to figure out who goes first.  
"Oldest or youngest" person playing. Person with the longest name at the table playing.  
Tallest or shortest person playing.  
Person with the funkiest hair.  
Alphabetical order. Do a version of Eny, meeny, miny, moe.  
Whichever way you decide who is going to go first is up to you.  
Got it figured out? Great!!!

The game is now officially underway, and you proceed in a clockwise direction with the player to your left giving a different answer. Play continues in this manner until someone gets **STUMPED** and can't come up with an answer **OR** the answers are exhausted out (no more answers are available). The person is given a "few seconds" to think and then must come up with an answer. The person who gets stumped moves their game piece on the board, however many spaces the card says.

## **RAPID AROUND**

Rapid Around means just that!! **RAPID AROUND!! YOU CANNOT TAKE BEYOND A REASONABLE AMOUNT OF TIME TO GIVE AN ANSWER – So what AMOUNT OF TIME IS REASONABLE?** Well, because we want this to be a **FUN** game to play, we will leave that answer up to **YOU**, the players. Whatever you agree on prior or even during the game!! It could be 5 seconds, 10 seconds?!? You decide what is "FAIR & REASONABLE"?!? It's **NOT** set in stone.

**\*IF AN ANSWER SOUNDS EXTREMELY UNREASONABLE – THE PLAYERS CAN VOTE TO HAVE IT DISALLOWED BY REJECTING IT. FOR THE ANSWER TO BE DISALLOWED, IT MUST BE A MAJORITY VOTE. IF THE VOTE BY THE OTHER PLAYERS IS A TIE – THE ANSWER STANDS.**

**\*\*THE ABOVE ELEMENT OF THE GAME IS TOTALLY OPTIONAL. Remember, it's all about HAVING FUN!!**

**OBJECTIVE: HAVE FUN.....REPEAT!!**

### **Winning the Game:**

Whichever player is left standing **OR** furthest from the "EXIT" SQUARE/SPACE on the Game Board **WINS!** Simple as that!! You can play till there is only the "last person standing" **OR** you can play for a given amount of time?!? That is left up to you!!
